

DOCUMENT-IDENTIFIER: US 5847046 A

TITLE: Biodegradable bone cement

----- KWIC -----

DWKU:

**5847046**

CLPR:

11. A **kit** for biocompatible implantable bonding material comprising at least first and second components, the first component including particles of bioabsorbable polymer and free radical catalyst, the second component including **liquid monomer** selected from the group consisting of acrylic acid monomer, methacrylic acid monomer, acrylate monomer, methacrylate monomer and combinations thereof, and catalyst activator.

CLPR:

13. A **kit** for biocompatible implantable bonding material according to claim 11 wherein methacrylate **liquid monomer** is methylmethacrylate.
